

A banner image for the TOCAT6/APCAT5 conference. It features a background of a park with trees and a path. A green horizontal bar is overlaid on the left side, containing the text 'TOCAT6/APCAT5' in white. Below this bar, the text 'July 18-23, 2010 / Sapporo, Japan' is written in white. On the right side of the banner, there is a red and green geometric logo consisting of a hexagon with internal lines forming a complex 3D-like structure.

Hiking at Jigokudani

SCIENTIFIC EXCURSION

Barbecue at Sapporo Beer Garden

Awards of Best Youth Oral Presentations

YO-B12 Nobutaka Maeda (Italian Institute of Technology)

Simultaneous monitoring of gas and surface species during NO_x storage-reduction by in situ polarization-modulation infrared reflection-absorption spectroscopy

YO-B05 Kazuhiko Maeda (The University of Tokyo)

Hexaniobate nanoscrolls as building blocks for dye-sensitized hydrogen production from water under visible light irradiation

YO-C06 Na Ta (Dalian Institute of Chemical Physics)

Influence of CeO₂ morphology on Au nanoparticles for CO oxidation

YO-B11 Qiang Gao (University of South Carolina)

The Effect of Ni Promoter and Chelating Reagent for the Preparation of Highly Active Ni-MoS₂/γ-Al₂O₃ HDS Catalysts

YO-C11 Nicolas Bion (CNRS/University of Poitiers)

Sulfonic acid functionalized crystal like mesoporous benzene silica as a remarkable water tolerant catalyst

YO-C12 Feng T. Fan (Dalian Institute of Chemical Physics)

UV Raman spectroscopic studies on zeolite assembly mechanisms

Awards of Best Youth Poster Presentations

THANK YOU FOR YOUR COOPERATION!

Could you join me to thank the young members of the local organizing committee?

Have a good trip!
