

THE INVITATION

The Catalysis Society of Japan invites all scientists and engineers in the field of selective catalysis and related science and technology to participate in the International Symposium on Creation and Control of Advanced Selective Catalysis, a Pre-symposium of 14th International Congress on Catalysis (ICC 14). The meeting will be held in the "Kyoto University Clock Tower Centennial Hall" on July 8-12, 2008, in a Japanese memorial city, Kyoto. There are many flights everyday from Kansai Airport near Kyoto to Incheon Airport, Seoul, which will take only 2.5 h.

REGISTRATION FEE

- Early Registration (before the end of May 2008)
30,000 JPY, Student 10,000 JPY
Accompanied Person 5,000 JPY
- Late and On-site Registration (after June 2008)
40,000 JPY, Student 15,000 JPY
Accompanied Person 5,000 JPY
- Banquet Fee: 10,000 JPY
- Optional Sightseeing (see Website): 10,000 JPY

KEY DATES

- Welcome reception :
8th July, 2008
- Scientific program :
9th-11th July, 2008
- Symposium banquet:
11th July, 2008
- Optional sightseeing :
12th July, 2008
- Second circular with instructions to authors :
October, 2007
- Deadline for receipt of one-page abstracts :
31st January, 2008
- Notification of acceptance :
31st March, 2008
- Deadline for early registration:
31st May, 2008

SCOPE AND OBJECTIVES

Creation and Control of Advanced Selective Catalysis

The Catalysis Society of Japan organizes a pre-symposium of 14th International Congress on Catalysis (ICC 14) as the celebration of 50th anniversary of the foundation of the Society during July 8-12, 2008 (July 12 for optional sightseeing) in a Japanese memorial city, Kyoto. The perspectives and the current status of the pioneering selective catalysis designed and manipulated at atomic/nano-levels will be the emphasis of the symposium. Achievements of worldwide young scientists will be also highlighted. Three-days scientific program will comprise 3 plenary lectures, 30 invited lectures, 50 oral presentations, and 200 posters on the following topics:

- A. Fundamentals and theory for the selective catalysis
- B. In situ characterization of the selective catalysis
- C. New selective catalysis for green processes
- D. New catalytic materials for the selective catalysis
- E. Innovative processes by the selective catalysis

PLENARY LECTURES

"The Molecular Ingredients of Catalytic Selectivity"
Gabor A. Somorjai (University of California, Berkeley, USA)

"Biofuels/Biomass-To-Liquids (BTL) within the Biorefinery Concept: The Catalytic Conversion of Biomass using Porous Materials"
Michael Stöcker (SINTEF SI, Oslo, Norway)

"Development and Prospect of Catalytic Process for Chemicals Synthesis"
Tadao Kondo (Nippon Shokubai Co. Ltd., Osaka, Japan)

ABSTRACT SUBMISSION

Those wishing to contribute to the symposium are invited to submit one-page abstract in English through our website <http://www.shokubai.org/intern/ICC-Pre/> with the mode of presentation and the related topics (A-E) **by 31st January, 2008**. The decision of the acceptance of the paper will be made on the basis of the abstract by 31st March, 2008. The Program Committee will decide the presentation mode.
