Leading the Way in Molecular, Heterogeneous, and Biological Catalysis >>>

Launched in 2011, *ACS Catalysis* is already at the forefront of catalysis publishing, having received its high first Impact Factor (**5.265**) in 2013.

ACS Catalysis publishes Letter, Article, Review, Perspective, Viewpoint, and Account type manuscripts to report the leading original research on heterogeneous catalysis, homogeneous catalysis, and biocatalysis.

Wide-ranging coverage includes:

- life sciences
- drug discovery and development
- household products
- polymer discovery and production
- environmental protection
- energy and fuels
